ENVIRONMENTAL & SUSTAINABILITY POLICY

ASSENT STEEL INDUSTRIES L.L.C., ASCO Building Contracting LLC and ASSENT for Engineering Services (Egypt) are committed to reducing the environmental & sustainability risk level in all our operations. This involves integrating sustainable measures into our business model and future developments while inspiring best practices from our stakeholders and the communities we serve. Our dominant environmental impacts are currently related to waste, energy, and water use.

We will achieve and commit to increasing our Environmental Sustainability through the following actions:

- Strive to continuously reduce the environmental risk by performance by regularly reviewing our activities and policy and setting new targets to reduce any environmental impacts.
- Measure and record, review and analyze levels of waste, energy, and water use, and establish a baseline for performance monitoring.
- Employ effective waste management practices, including proper segregation, recycling, and responsible disposal of waste materials.
- We prioritize the reuse and recycling of materials to minimize our contribution to landfills and promote a circular economy.
- Ensure all waste, including hazardous waste, is disposed of safely and responsibly as per best practices and local regulations.
- Comply with requirements of environmental legislation and work towards approved codes of practice throughout our business operations.
- Optimizing the use of sustainable resources and reducing wastage to minimize our carbon footprint and environmental impact.
- Take environmental conditions into account wherever is possible when procuring goods from vendors and when engaging sub- contractors.
- Raise awareness and encourage participation in dealing with environmental matters through communication and educational events for staff, tenants, and all other stakeholders.
- Actively engage with local communities and participate in environmental initiatives that contribute to the well-being of the regions where we operate.

This Environmental and Sustainability Policy Statement shall be communicated to our employees and personnel working under our control and will be made available to all stakeholders. This policy statement shall be reviewed and updated as appropriate.
